Kerala has made the passing part easy and the choosing part hard.
Let's make the choosing easier, with facts instead of opinions.

DATE _____ TIME _____

VENUE _____ FOR _____

In one session, you will:

1

See every route honestly

Streams, courses, entrance exams and jobs: what each really contains, costs and leads to, including the routes most families never look up.

2

Find out where you stand

Complete your own **Six Windows** self-assessment of interest, aptitude, temperament, values, circumstances and the job market, and take it home.

3

Ask anything

Bring the questions you have not been able to ask at home. Parents are welcome. A free one-to-one follow-up is available for any family.

Led by **Satish Kumar V.** and the authors of the **Kerala Career Compass** series.
